

# Result Guide

## Reporting results

When the website is open for reporting results a red line appears below “Resultat og metode” (1) ”**Der er åbne resultatindberetninger (Open for results)**” (1).

When you have filled in your methods you tape your results. Click on on “Resultat og metode” (1) or “Resultater” (2).

The EQA programs that are open for results reporting will be listed (3) to the left. To the right, “Status”, (4) is shown two numbers separated by a slash. The first is the number of result\_id that you already have reported, the second shows how many Laboratory result\_id you have in total.
